# CPSL 2022

3rd Conference on Production Systems and Logistics

May 17-20, 2022

by publish-Ing.

The 3rd Conference on Production Systems and Logistics (CPSL) is an international forum for the scientific exchange of current findings in the field of production engineering.

All submitted papers will be reviewed in a two-stage peer review process by experienced scientists from renowned research institutes as well as authors of other submitted papers. This ensures a constant and high quality as well as an influence of all participants on the papers and reviews. Subsequently, all accepted papers will be published open access in order to make them permanently accessible -worldwide and free of charge.

Automation	Machine Learning & Data Mining
Business Administration	Production Planning & Control
Digitalisation / Industry 4.0	Process Management
Factory Planning	Supply Chain Management
Knowledge Management	Sustainability
Lean Manufacturing	Technology Driver
