

CPSL 2023

4th Conference on Production Systems and Logistics

Special Edition: "How to close the Gap between Science and Industry?"

February 28 - March 3, 2023
Santiago de Querétaro, Mexico

by  publish-Ing.

Co-Host 

The **CPSL** is an international conference for the scientific exchange of current findings in the field of production systems and logistics. All submitted papers will be published with open access after they have been reviewed in a two-stage peer review process by experienced scientists from renowned research institutes as well as authors of other submitted papers.

For the 4th CPSL we have thought of something special. The conference is organized in cooperation with the **Institute for Industrial Management at RWTH Aachen University (FIR e.V.)** and aims to establish an exchange on the idea of bridging the gap between science and industry. In addition to cutting-edge topics in the field of production systems and logistics this event will feature practical sessions and discussions with local and international industry.
