CPSL 2024

6th Conference on Production Systems and Logistics

July 09 – July 12, 2024
Honolulu, Hawaii

by publish-Ing.

The **CPSL** is an international conference for the scientific exchange of current findings in the field of production systems and logistics. All submitted papers will be published with open access with individual DOI after they have been reviewed in a two-stage peer review process by experienced scientists from renowned research institutes as well as authors of other submitted papers.

The 6th CPSL will by co-hosted by the Engineering College of the University of Hawai'i at Mānoa and will take place at their facilities – the perfect space for highly interesting presentations, inspiring keynote speeches and a pleasant exchange to further expand your scientific network. As always, where the gala dinner will take place remains a surprise for now, but we can assure you of one thing - as every time, it will be a memorable evening.

- Automation
- Business Administration
- Digitalisation / Industry 4.0
- Factory Planning
- Knowledge Management
- Lean Manufacturing
- Machine Learning & Data Mining
- Production Planning & Control
- Process Management
- Supply Chain Management
- Sustainability
- Technology Driver
